FOR EDUCATIONAL PURPOSES

SEARCH FOR LETTERS

Ref. 30670

CONTENT:

The game consists of 120 cards made out of thick, very durable and high quality cardboard. Each card is in the shape of a puzzle piece, which allows it to fit with the other pieces to form words.

DESCRIPTION OF THE GAME:

- 32 cards with pictures of objects and their name in uppercase and lowercase (Measurements: 5.8 x 4.9cm).
- 88 cards with letters to form the words of the pictures (Measurements: 5.8 x 4.3cm).

RECOMMENDED AGE:

From 4 to 8 years.

With children of 4 and 5 years, we recommend asking them to form the words represented in each picture. The child chooses a picture and must identify the letters required to form that word. They can see how to spell the word on the card. Once they have formed the word, ask them to name the letters comprising it one-by-one. With children of 6 to 8 years, once they have become familiarised with the game described above, you can ask them to form other words of their choice.

TEACHING OBJECTIVES:

- o Develop phonological awareness and the recognition of letters.
- o Encourage the development of pre-reading and pre-writing.
- o Develop observation and association.
- o Improve psychomotor coordination and manual dexterity by handling the cards and joining them correctly.
- o Develop and expand basic vocabulary related to the pictures of the puzzles.

HOW THE GAME WORKS:

1. Place all cards face up on a table.
2. Choose a picture and find the letters to form the corresponding word.
